Week - 5 Report

Name	Enrollment no
Dhruv Kabariya	AU1940188
Shivam Thakker	AU1940193
Pranav Gandhi	AU1940313

- Task Performed this week :
  - This week we try to complete our model as per given in paper.
  - We completed the Swin transformer block and connected it with the same block. We also added a convolution layer at the last layer and made it a residual connection.
  - We connect the same residual block and connect this type of 6 blocks in series and here I also added a convolution layer as last.
  - Now I passed this encoded vector to the Image reconstruction module.
- Tasl for next week :
  - We will try to use some pre build method to compare it with our model.
